

TRANSIT REGULATION ON SKI SLOPES

Winter 2019/2020

To our kind customers,

we remind you that the L.R. 2/2009 and s.m.i. forbids the ascent on foot or skis of the ski slopes. Moreover we specify that:

Monterosa 2000 S.p.A.–manager (art. 16 L.R. 2/2009) of the ski slopes of Alagna Valsesia - Monterosa ski area–agrees, according to art. 32 of the aforementioned law, for the current 2019/2020 winter season, the possibility of transit uphill with ski mountaineering equipment in the following ways:

- the only ascent along the ski slopes every day from 6.00 a.m. until the opening to the public;
- the descent along the slopes, only after the opening hours to the public;
- transit along the service tracks where there is no interference with the ski slopes.

In any case, according to art. 27 paragraph 3 of the L.R. 2/2009, the responsibility for transit on the slopes outside the opening hours to the public remains the sole responsibility of the user.

Instead, the absolute prohibition of travel of the aforementioned tracks will be enforced, both uphill and downhill during their operating hours and also outside this time in the event of reporting by Monterosa 2000 S.p.A. due to technical needs or objective risks.

The prohibition of transit outside the runway hours will be communicated by sending a special newsletter, affixing a red banner on the site <http://www.meteoalagna.it/situazione.php>, and by displaying suitable signs or digital format at the Alagna ticket offices in Frazione Bonda n. 19.

It should be noted that any failure to comply with the aforementioned indications will be sanctioned in accordance with the law.

Monterosa 2000 S.p.a. , fraz. Bonda 19, 13021 Alagna Valsesia (VC) - tel. 0163.922922 - fax. 0163.922663 - www.monterosa2000.it info@monterosa2000.it
